### Workspace infrastructure upgrade for investment management firm

Citrix solution provides greater agility and increased stability with reduced costs

#### Challenge

- Customer's legacy workspace environment nearing end of life
- Updated solution required to provide increased stability and greater agility

#### Solution

- End-to-end workspace solution assessed for pain points and areas for improvement
- Key focus points were application delivery and access, secure remote access and compute resources
- Technology used included:
  - Citrix XenApp, XenDesktop and Netscaler VPX
  - AppSense DesktopNow

#### Result

- Measurable increase in agility
- Ability to recover from loss of a site
- Significant reduction in logon times
- Decrease in infrastructure management overheads

#### Customer

This privately owned, London-based wealth management company provides services within Europe and employs external managers for investments. It advises on public equities, leveraged buyouts, venture capital, real estate, hedge funds, fixed income and natural resources.

**Xtravirt** is a leading, independent provider of enterprise virtualisation solutions. We deliver data centre, workspace and cloud transformational solutions to clients across public and private sectors, both in the UK and internationally.
