Case study
Healthcare

Leading the field in the healthcare sector

NHS Trust demonstrates how VDI reduces management complexity

Challenge

Proof of Concept for:
- MS Windows XP migration onto new virtual desktops
- Management of remaining physical desktops with VMware Mirage
- Upgrade smartcard-based systems access

Solution

- VMware Horizon (with View)
- VMware Workspace
- VMware ThinApp
- VMware vRealize Operations for Horizon
- VMware Mirage
- Teradici thin clients
- Imprivata OneSign SSO

Result

- Increased security of the end points
- Improved manageability of EUC solution
- Increased efficiencies in system upgrade process

Customer

The customer is an NHS Foundation Trust which is responsible for one of the leading acute hospitals in the United Kingdom, its solid reputation built over the last 250 years. One of the first Foundation Trusts to be created and with 7,000 staff, they have a track record for piloting new innovations to achieve the best solution for their needs.

Xtravirt is a leading, independent provider of enterprise virtualisation solutions. We deliver data centre, workspace and cloud transformational solutions to clients across public and private sectors, both in the UK and internationally.
